INTERIOR DOORS

MDF *Beautiful*

MDF doors are one of the interior doors type than you can use for office or your home . There are different models than you can choose .these doors are made of 0.8 mil mdf sheets and next covered by 0.4mil pvc coat by the membrane machine.These doors aren't waterproof but these are water resistant so you have to be careful in using it .

POLYWOOD
I N T E R I O R D O O R S

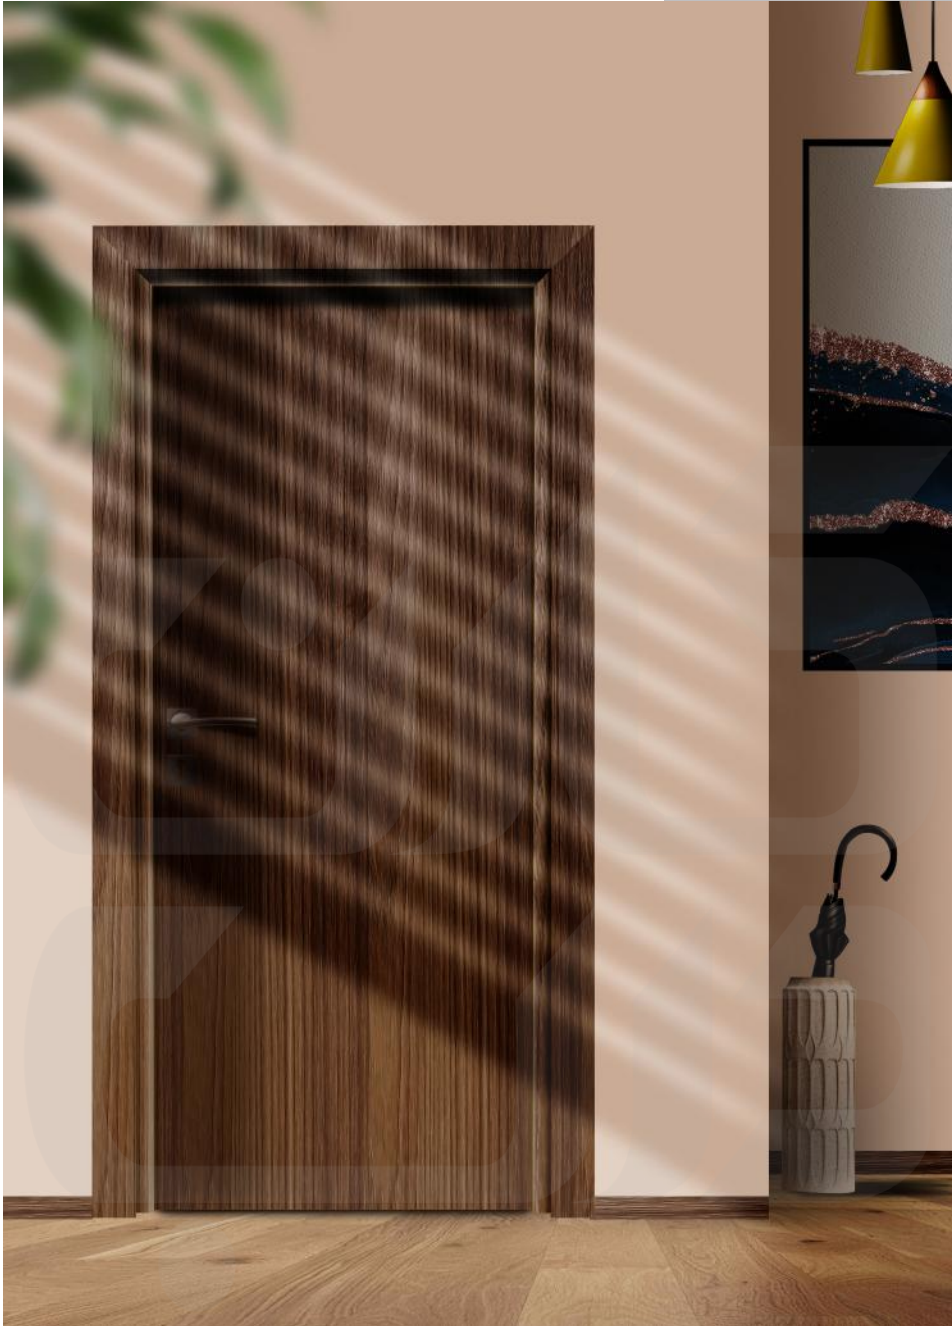

Polywood doors are made of polymer and recycled materials, which in addition to being strong and waterproof are also environmentally friendly, and no trees are cut to produce them. These doors are covered by cold press method using PVC coating.
